

ENERGY SAVER HOME LOAN PROGRAM ATTESTATION FOR PROJECTS WITH WORK FUNDED USING HEAT LOANS OR TURNKEY PROGRAMS

I, _____ have received an Energy Saver Home Loan through MassHousing. The Energy Saver Home Loan Program requires that loan funds will be used to finance part or all of energy saving home modification project that, taken as a whole, will reduce energy use by at least 20% per year, as modeled by Abode Energy Management using the SnuggPro energy modeling software. I am funding part of the energy saving work to my home with a HEAT loan or through the MassSave Turnkey program, and that work provides part of the project's overall 20% modeled energy savings required under the Energy Saver Home Loan Program. As a condition of MassHousing's release of any unexpended Energy Saver Home Loan contingency funds (or "escrow account" funds) at the completion of my energy saving home modification project, I hereby attest to the following:

ATTESTATION

I have completed and paid for the installation of all work funded by my HEAT loan that was included as part of my overall energy saving home modification project in my application for an Energy Saving Home Loan project, or, if I am using the Turnkey program, that all Turnkey work has been completed. I understand that Abode Energy Management will view and confirm that HEAT loan or Turnkey funded work is completed at their final walkthrough of my home.

Following Abode's confirmation that this work has been completed, MassHousing will close out the escrow account for my Energy Saver Home Loan project and apply the remaining escrow balance to loan principal.

I attest and warrant to MassHousing that the information in this Attestation is true, accurate and complete. I understand that if I have made any material misstatements or omissions in this Attestation I will not have met the Energy Saver Home Loan Program Requirements and MassHousing will retain any funds in the escrow account for my Energy Saver Home Loan until MassHousing receives satisfactory proof that work that was to be funded with the HEAT loan funded or through the Turnkey program has been completed.

By my signature below, I attest that the information provided above is true and correct to the best of my knowledge
