About

MassHousing is an independent, quasi-public agency created in 1966 and charged with providing financing for affordable homeownership and rental housing in Massachusetts. The Agency raises capital by selling bonds and lends the proceeds to low- and moderate-income homebuyers and homeowners, and to developers who build or preserve affordable and/or mixed-income rental housing. MassHousing does not use taxpayer dollars to sustain its operations, although it administers some publicly funded programs on behalf of the Commonwealth. Since its inception, MassHousing has provided more than \$29.5 billion for affordable housing.

The Housing Stability Department (HSD) provides a variety of programs and resources aimed at promoting positive tenancies, reducing evictions, and creating opportunities for residents of affordable rental housing. HSD leads Inter-governmental collaborations to address disparities in housing access and stability for at-risk populations; offers program and grant support to help MassHousing partners foster inclusive, safe, healthy and thriving communities; and organizes learning opportunities that focus on the intersection of social issues and affordable housing.

For more information, visit masshousing.com/housingstability.
